## PREFACE.

THE testamentary documents preserved at the Probate Registry at Chichester consist of those in the Consistory Court, the Peculiar Court of the Dean of Chichester, and the Peculiar Court of Pagham and Tarring Deaneries.

The jurisdiction of the Consistory Court extends over the whole of the Archdeaconry of Chichester, comprising the Deaneries of Arundel, Boxgrove, Midhurst, and Storrington, and thus covers the western portion of the County of Sussex, as that of the Archdeaconry of Lewes covers the eastern portion.

The Peculiar of the Dean had jurisdiction over nine parishes in the City of Chichester, viz. St. Andrew, St. Martin, St. Olave, St. Peter the Great, St. Peter the Less, St. Pancras, St. Bartholomew, New Fishbourn, and Wike *alias* Rumboldswick.

The Peculiar of Pagham and Tarring Deaneries had jurisdiction over the parishes of Bersted, East Lavant, Pagham, Slyndon, Tangmere, All Saints', Chichester, Patching, and Tarring.

## REGISTERED WILLS.

It will be noticed that previous to Vol. 21 there are several gaps, there being no Registered Wills for 1598, 1606, 1611-17, 1620-25, and 1640-43, but as to these see under the heading Original Wills. Of course there is the usual interval from about 1652 to 1660 during the Commonwealth, when all wills in England were proved in London.

The Calendar from Vols. 1-10 was compiled by the late Mr. E. H. W. Dunkin from the Registers themselves, and on hearing that the British Record Society contemplated the printing of a Calendar of the Chichester Wills, he most generously placed a copy of his own Calendar at its disposal. This being probably the most difficult portion to read, his work should be remembered by all those who make use of this Calendar.

Vols. 12-45 were then proceeded with on similar lines by going through them page by page and comparing the list thus made with the Indexes with which each volume is supplied. This mode of checking the work has resulted in finding several wills not so indexed.

The whole of these two lists were then cut up and thrown into one Lexicographical Index, thus enabling any one to find a West Sussex will in as few minutes as previously it had taken days.

#### ORIGINAL WILLS.

Besides the Registered Wills just described there is a large collection of Original Wills ranging from about 1550 to about 1590. They were formerly in a state of great confusion, but now have been examined and arranged in files lettered A to Z, and each document numbered, and where they tally with the Registered Wills the reference is given thus, "Orig. A. 1," etc., in the printed Calendar. Many of the Original Wills are in very bad condition, and there is little object in consulting those that are already registered. Some of the Original Wills are unregistered, and these appear in this printed Calendar thus, "Orig. B. 5," without any corresponding volume, number, and page.

Quite recently, however, another set of Unregistered Wills of more recent date has come to light, and these fill up some of the gaps previously mentioned in the volumes of the Registered Wills, viz. 1606, 1611-17, 1621-25, and 1640-43. These have now been incorporated with the General Calendar, and are referred to under their date and number in A. Dean., B. Dean., M. Dean., or S. Dean., as the case may be, signifying Arundel, Boxgrove, Midhurst, and Storrington Deaneries respectively.

#### ADMINISTRATIONS AND PECULIARS.

The Administrations, commencing 1555, the Wills in the Peculiar of the Dean, commencing 1553, and the Peculiar of

Pagham and Tarring Deaneries, commencing 1520, have not been calendared yet, but it is hoped that they may be undertaken at a later date. In the meantime there are indexes for the periods which they cover in the Registry.

Shortly before his death Mr. Hugh Penfold made a donation to the British Record Society in order to defray the cost of calendaring the Wills and Administrations at Chichester, and it is largely owing to his generosity, coupled with that of Mr. Dunkin, that the work has been carried out in a comparatively short time.

The thanks of the Society are hereby also offered to the Registrar, Mr. W. B. B. Freeland, for his kind permission to calendar the documents, and also to Mr. H. R. Cutten, the Chief Clerk, who has afforded every facility in his power.

## SOME SEVENTEENTH-CENTURY CHICHESTER WILLS

By W. D. Peckham

The volume now marked 21b in the series of consistory Court Will registers, which contains copies of Wills made or proved between 1642 (James Sawyer) and 1668 (Elizabeth Randall), was not indexed in B.R.S. Vol. 49; it clearly was not originally an official Will register; and internal evidence points to its having been a notebook of the firm of lawyers partners in which held the offices of Bishop's Registrar and Chapter Clerk both before and after the Interregnum. Not only can most of the Wills be identified as having been proved before the Judges of Probate in London, but a few are of Hampshire testators with which the Chichester Consistory Court would never have been competent to deal. (Richard Baker was doubtless, in contemplation of law, of Steep, Hants, but he may well have lived at South Ambersham, between Selham and West Lavington, and have had his Will drawn up by a lawyer in Chichester, no more than ten miles away as the crow flies.)

I first compiled this index from the original, and next compared with the printed indexes of Wills proved in P.C.C., adding references and, in brackets, probate dates where they were lacking; I then checked the remainder with Wills proved at Chichester after the Restoration, and have recorded the somewhat surprising result in footnotes. It should be borne in mind that, while some Wills, such as that of John Jowning of North Mundham, may have been proved but not registered, others for which there is no evidence of probate may have been revoked in the lifetime of the testator, but are none the less valuable genealogical evidence.

The P.C.C. year references are as follows:
